

ERRATA FOR AIMCAT1818SECTION I - VARC

Q.9) In this question, choice D was originally given as: "Hegel and Weber were both opposed to Karl Marx who had reversed the priority of the real and the ideal worlds."

Choice D has now been changed to read: "None of the above".

This is because choice C is the correct answer and the original choice D also happens to follow from the passage.

Note: With the change in choice D, the correct answer key for this question remains the same, i.e., Choice C.

Q.12) In this question, choice C was originally given as: "Paul Kennedy believes that empires made a mistake in considering economic activity to be the sole arbiter of their continued existence."

The above choice C cannot be inferred correctly from the passage.

Choice C has now been changed to read: "Paul Kennedy believed that great empires declined because of economic reasons."

Note: With the change in choice C, the correct answer key for this question remains the same, i.e., Choice D.
